

ER Section Meeting 03/29/16

I. Section Chief's Corner

- Pack and ready to move day is May 13th. Move in day is May 31st.
- Harry on A/L next week.
- Reminder to update your entries in the "R9 Project Data Spreadsheet" on Sharepoint. It's in ERS Work folder, then Sites Folder. If for some reason you can't access or are unable to edit, please get with Craig to figure out an alternative as would like current information for mid-year call.
- Reminder to review the START TDD weekly Ramon delivers each week and stay on top of critical TDD needs. We will discuss critical TDD needs (and ERRS TO needs) every week during the section meeting and the notes will document our collaboration with addressing issues. I have chosen to red-highlight references to TDDs and TO's here for this week's notes.

Mark your Calendars and plan your field work accordingly - OSC mandatory "week" (3-day) of training Noon 5/16 – Noon 5/19 in SFO.

II. Individual Report Outs

Craig Benson: Phones. New ERRS pre-planning TO for Certified Towing Site requested yesterday. Preparing a draft Action Memo soon, anticipating about a two-day field effort. Still awaiting data from the CUPA for the Apache Road Drum site.

Steve Calanog: Beginning to provide some technical support for the Exide Site in Vernon, CA.

Tom Dunkelman: Taking balance of the week off for Spring Break. Final decision as to whether next mobilization to Eureka (scheduled for May 2nd) will be covered under existing TCR-AM or new NTCR-AM that Tom has drafted under EE/CA still pends.
Next week, in Oroville assisting with ERT Oil Spill Training.
Past Info: Scheduling a meeting with Nevada State Rad Health (probably April) and has requested either Wise or Musante to participate. Which one is available to be determined later when date finalized.

Bret Moxley: Working with Dunkelman on Eureka project. Currently considering the scheduling for the May 2 mobilization through about July. Some interest in 10-day shifts already expressed, contact Bret if you want in.
Initiated new RA, possible RV, for Anderson Springs Mercury Site, spinoff CERCLA issue from past Valley Fire response work. Bret will be sending a CPW and TDD request for full RA later this week.
Past Info: Moxley has volunteered to help the group with a FOIA refresher.

Jason Musante: Conducting assessment/technical support work for the Mira Loma Radium Dial House (Riverside County). Still anticipating a PRP lead (BB).
Supporting Powell with the El Centro Lead Site referral from DTSC and County Health. Possible site walk later this week.
Completed DOT training this week, Med. Monitoring and a Chevron TTX Thursday in El Segundo.

Randy Nattis: Wrapping up the Haystack FOIA, workplan comments to BNSF.
On 5/5-5/6, hosting a Contaminated Structures exercise in the Bay Area. More info later.
Ramon is plugged into all his various TDD needs.

Marty Powell: SL Today. Leading the El Centro Lead Site RA. Fluorochem site in Azusa (LA County) is still in the preliminary removal assessment stage with DTSC. This is likely to turn into a PRP oversight removal or possibly a small fund lead removal.
Past Info: Marty is also working on the VI issue on behalf of the OSCs.

Chris Reiner: Prepping for upcoming Guam/Saipan work. Includes the last dig out of soils impacted by transformers (Guam) and follow-up with the new Lower Base Medical Waste Site (Saipan). The

latter likely to involve a short form After Action Memo and use of ERRS ER TO.

A change of PRP contractors at the ED Coat Site has set the schedule back – stay tuned.

Michele Rogow: Travel Comp Used this week.

Dan Shane: Combo Comp/AL and In this week.

Maggie Waldon: Still going back and forth with ORC on Argonaut AM.

Chris Weden: Possible quick RS/RV at Yurok tribe site – stay tuned.

Next week, in Oroville assisting with ERT Oil Spill Training.

Robert Wise: Working with START and ERRS to schedule a site visit next week, completed a draft AM (reviewed by Waldon) and sent to HQ for a quick look while in draft stage to grease the skids for a HQ Dioxin site concurrence.

Donn Zuroski: At ASIG.

Zuroski to patch in to Am. Samoa ORRT planning call this Thursday 3:00 PM-4:00 PM Pacific Time.

III. Contracts Corner:

All good today.

IV. Health and Safety Corner:

Moxley/Reiner have arranged an interesting Level A exercise for our OSC gathering in May.

Wise still determining if CPR/First Aid will be scheduled for our OSC gathering in May.

V. Equipment Corner:

Guria notes that vehicle will be posted at the Richmond Lab and individuals will need to make sure their smart cards are activated to get in/out of the gated area.

VI. Other:

Lance – RRT meeting in Tuscon 4/12-4/13. Also a spin-off assist to ITCA on the 13th with a DOT funded commodity flow study at the San Carlos Apache Tribe (1 day). Benson looking for a carpool buddy for the round trip out of Tuscon with someone already intending to go to RRT? Kay/Lance to prep travel justification for > 3 branch folks in Tuscon & vicinity (I think).
